A Tell-Tale Letter Betrays the Wayward

and Consuming but Unselfish Love

of Mrs. Governor Stoneman.

Why She Loved.

LOS ANGELES, Cal., Dec. 16.—Ordinarily it takes a long time to show the "best society" here, but it is now the turn of the divorce suit involving Mrs. George Stoneman, wife of the late Governor of California.

Mrs. Gov. Stoneman is about 50 years old, but she is as fresh as a rose.

She is the wife of a man who was also a general in the United States army during the late civil war.

Judge Brown, is about 30 years of age, and is the son of a prominent family.

He is a man of great energy and ability, and has been successful in many of his undertakings.

At the conclusion of his term the Governor and Mrs. Stoneman returned to Los Angeles, where they were joined by their son, who had been in the army.

Spring lambs come in limited num-

bers before the holidays. They sell for

high prices, of course; those weighing

25 pounds frequently bring \$10.

If you think best to clean your

stomach before spring, but the man-

ure under shelter; indeed, all com-

post hogs should be sheltered.

Now that the winter has set in, the

condition of the roads that makes it

costly to transport a load over

land is growing more and more

serious.

Theory is good, but practice is bet-

ter. It is easy to tell how a thing

should be done, but it is not so easy

to know how to do it.

We may read all we can and still

be ignorant of the true value of

theories. A theory which may be

practical in one place, may be

impractical in another.

A good farmer will never under-

stand a good man more than he can

thoroughly cultivate. It is the aim

of many farmers to get as many

acres as possible, and to grow

the best crops on the land.

For instance, one man

will put in 50 acres of wheat,

while his neighbor will put in 30

and get as many bushels, and per-

haps more, than the other.

It is not the size of the farm, but

the way it is cultivated, that makes

the difference.

A good way to reduce losses for

farmers is to keep the land in

the best condition possible.
